During the first, and part of the second term, the Erving Professor is occupied in giving lectures daily in the Medical School, to the medical students four months, including the winter vacation.

Instruction in Chemistry, at Cambridge, begins with the *Juniors*, as soon after the commencement of the second term as the Medical Lectures and Examinations for Medical Degrees close in Boston, and continues on Tuesdays, Thursdays, and Saturdays, at 10 o'clock, A. M., through the term, ending about the middle of the third term. The *Seniors* have liberty to attend.

The *Seniors* commence the study of Mineralogy in the third term, as soon as the Professor has finished Chemistry with the *Juniors*; attending at the 2nd hour before the prayer-bell in the afternoon, and continuing to the end of the term.

DEPARTMENT OF BOTANY AND ZOOLOGY.

The place vacated by Mr. Nuttall remaining still unsupplied, the instruction in this Department was given, at the request of the Corporation, by Augustus A. Gould, M. D., of Boston. It consisted of nineteen recitations in Smellie's Philosophy of Natural History, each of them accompanied by brief illustrations of Zoölogy; and of twelve Lectures on Botany, the attendance on which was voluntary, a majority of the Class being usually present. These exercises were for Seniors, during the third term, the recitations occupying one hour in the forenoon, four days in the week, and the Lectures one hour in the afternoon twice a week.

I.

DEPARTMENT OF MODERN LANGUAGES.

This was under the superintendence of George Ticknor, A. M., Smith Professor of the French and Spanish Languages and Literature, and Professor of Belles Lettres; assisted by four instructors, viz. Francis Sales, Esq., Instructor in French and Spanish; Pietro Bachi, A. M., J. U. D., Instructor in Italian; Francis M. J. Surault, Instructor in French; during the first two terms, Charles Follen, J. U. D., then Professor of the German Language and Literature, and, since his resignation, Herman Bokum, Instructor in German.

The principles which regulate the study of the modern languages are these: 1. No student is compelled to study any one of them. 2. A student choosing to study any one, is bound to persevere; he is not permitted to quit the study until he has learned the language. 3. Those, who enter upon the study of any language, are formed into sections, and carried forward according to their proficiency, without reference to the distinction of Classes. 4. The Instructors are paid only for one half their time, and the days of instruction are Mondays, Wednesdays, and Fridays.

The Recitations are held generally during study hours; or A. M. from Study Bell till 12 o'clock, and P. M. from 2 o'clock till prayers; but, to avoid interference with recitations in other branches, some sections have been heard from 12 to 1 o'clock, and some in the evening, during the past year.

Two things should be borne in mind, when considering the state of this department.

1. The Freshmen never attend in it except as *volunteers*; that is, as students pursuing the study of some language entirely beyond

the regular course. The *regular* Students, therefore, were all members of the three upper Classes, who chose some Modern Language, as a substitute for other prescribed studies.

2. The Graduates attending on the instruction of this department, whose number is considerable, are not noted.

First Statement.

Number of Undergraduates taught during each term; the languages in which they were instructed; and the proportion of regular Students and Volunteers.

	French.	Spanish.	Italian.	German.	Portuguese.	Volunteers.	Regular.	Total.
First Term	82	27	63	53		102	123	= 225
Second Term	88	43	53	61	4	125	124	= 249
Third Term	75	31	54	40	4	100	104	= 204

The system of Volunteer study was begun in this department with 13 students in 1826; has increased every year since. Owing to the adoption and full application of this volunteer system, the amount of study and progress in each modern language have been greatly increased; in some sections doubled, within the last eight years.

Second Statement.

An Examination was held in each of the three Terms, by the Committee of the Overseers, who attended punctually and examined the students carefully themselves; and there were passed during the year, by this Committee, as having learnt French 44, Spanish 15, Italian 25, German 23, Portuguese 7; making in all 114.

The number of students during the past year has varied from 30 to 52. They have been usually divided into three classes according to seniority and advancement. Their attendance upon the exer-

cises has been hitherto wholly voluntary ; and has been marked by a punctuality and by a degree of advancement highly satisfactory. The opportunity of pursuing the study of the profession at the School is considered as a privilege, and the students themselves are understood to have been well satisfied with the arrangements.

TREASURER'S STATEMENT.

The Treasurer begs to present herewith the annual statement of the pecuniary concerns of the College.

Since the last statement there has been received from William E. Payne, Esq. \$ 9,869 $\frac{6}{100}$, being the amount of a debt and interest due from the Estate of the late William Payne, Esq. to the Estate of the late Governor Gore, of which the College was residuary legatee.

The Treasurer has also received from Jonathan Chapman, Esq. the sum of \$ 1,261 $\frac{41}{100}$, being the residue of the Estate of the late Rev. George Chapman of Framingham, and left by him for the support of Indigent Students in the Theological School.

There has also been paid to the Treasurer by direction of Dr. William J. Walker of Charlestown the sum of \$ 90, being one half of the proceeds of a share in the Boston Athenæum, to be applied to the general purposes of the College.

The Lands belonging to the College in the State of Maine have been all sold, and the money received for them, amounting to \$ 8,585 $\frac{4}{100}$. A half township, given by the State of Massachusetts to the Trustees of the Agricultural Society for the benefit of the Massachusetts Professorship of Natural History, has also been sold, and the money received for the same, amounting to \$ 15,327 $\frac{36}{100}$.

The College has purchased during the present year the Estate next to the Parsonage, called the Dana Estate, and the land adjoining thereto, belonging to the heirs of the late Abraham Bigelow, Esq., — so that the College now owns all the land within the Square described by the Common, Braintree, Foxcroft, Concord, and ——— Streets; — within this Square are situated the public buildings of the College.

It has been deemed desirable to separate as far as practicable the property of the College having a present value only in use or convenience, from that which is valuable as capital producing a direct income or from which an income may be derived. To effect this object,

and generally to present a plain, simple, and safe valuation of the College property, various changes have been made in the Books, the principal of which it may be proper to mention. The Bank and other Stocks belonging to the College are charged at their par value in cases where the par is less than the real value, — and where the real value is less than the par value, they are charged at the real value, — and where the valuation of property is altered in the Books, the new estimate is made with reference to its income, either actual or prospective, and rather under than over its supposed value. The balance against the Dane Law College has been discharged from the College Books, it not being available as capital; — and a part also of the cost of the Parsonage and Meeting-House Estates and of the Bigelow Land has been removed from the Books, this property having only a partial value as capital, from which an income is or may be derived. An account of Doubtful and Desperate Debts of many years' standing has also been discharged from the Books as of no value, — and the balance of the Gore Legacy and the amount received for Eastern Lands have been carried to the credit of the Stock account.

In consequence of the above and other changes in the property of the College and its valuation, the relative proportion between the Income and Expenditures for the past College year has not been preserved with the usual exactness. It will be perceived, however, that a considerable accession has been made to the College property from various sources, and it is presumed that the income for the ensuing year will be more than equal to the ordinary expenditure.

It is intended the next season to erect on the ground within the College Square, a granite Library Building, to be paid for out of the funds received from the late Governor Gore's Estate, and to be called "The Gore Library." The cost of this building is estimated at about 35,000 dollars.

It may be proper to state, that the accounts of Mr. Sparhawk, the late Steward, deceased, have been settled, and the Books and other property under his care transferred to his successor, Levi Farwell, Esq.

Which is respectfully submitted.

T. W. WARD, *Treas. Harv. Coll.*

T. W. WARD, *Treasurer of Harv. Coll.*

**CERTIFICATE OF THE COMMITTEE OF THE CORPORATION FOR
EXAMINING THE BOOKS AND ACCOUNTS OF THE TREASURER,
ENTERED IN THE JOURNAL KEPT BY HIM.**

The undersigned, a Committee appointed by the President and Fellows of Harvard College, to examine the Books and Accounts of the Treasurer for the year ending August 31, 1835, have examined from page 328 inclusive, and have seen that all the bonds, notes, mortgages, certificates of stock, and other evidences of property which were received by him and on hand at the beginning of said year, are now in his possession, or fully accounted for by entries made herein. They have also noticed all payments, both of principal and interest, endorsed on any of said bonds or notes, and seen that the amounts so endorsed have been duly credited to the College.

They have carefully examined all notes, bonds, mortgages, and other securities invested during the said year, and are of opinion that all such investments are judiciously made and amply secured.

They have in like manner satisfied themselves, that all the entries for moneys expended by the Treasurer, or in any way charged to the College, are well vouched; such of them as are not supported by counter entries being proved by regular vouchers and receipts, with the exception of petty charges and expenses, which from their nature do not admit of this kind of evidence.

The Committee have also seen that all the entries for said year are duly transferred to the Leger, and that the accounts there are rightly cast, and the balances carried forward correctly to new accounts.

(Signed) F. C. GRAY, } Committee of the
JAMES WALKER, } President and Fellows
of Harvard College.

Boston, October 9th, 1835.
